ABOUT OCEAN AIR MEDIA

With a background in yachting and a passion for digital media, we work closely with yacht owners and builders to capture media that will enrich your yachts digital presence.

With our team's in-depth knowledge of digital and social platforms, we excel in creating versatile media that's optimized for YouTube, Instagram, and beyond.

We are passionate about documenting every step of the yacht-building journey, offering clients a powerful way to showcase craftsmanship and innovation.

Whether it's immersive video, cinematic photography, or documentary-style YouTube episodes, Ocean Air Media is committed to producing media that captivates viewers and builds excitement.

FROM START TO FINISH

We know that what you do is so much more than just build floating vessels, you bring peoples dreams to life and that yacht owner chose you as their dream architect for a reason.

We want to work with you to build the narrative that you would like, from the history of your company to the moment the yacht makes her maiden voyage.

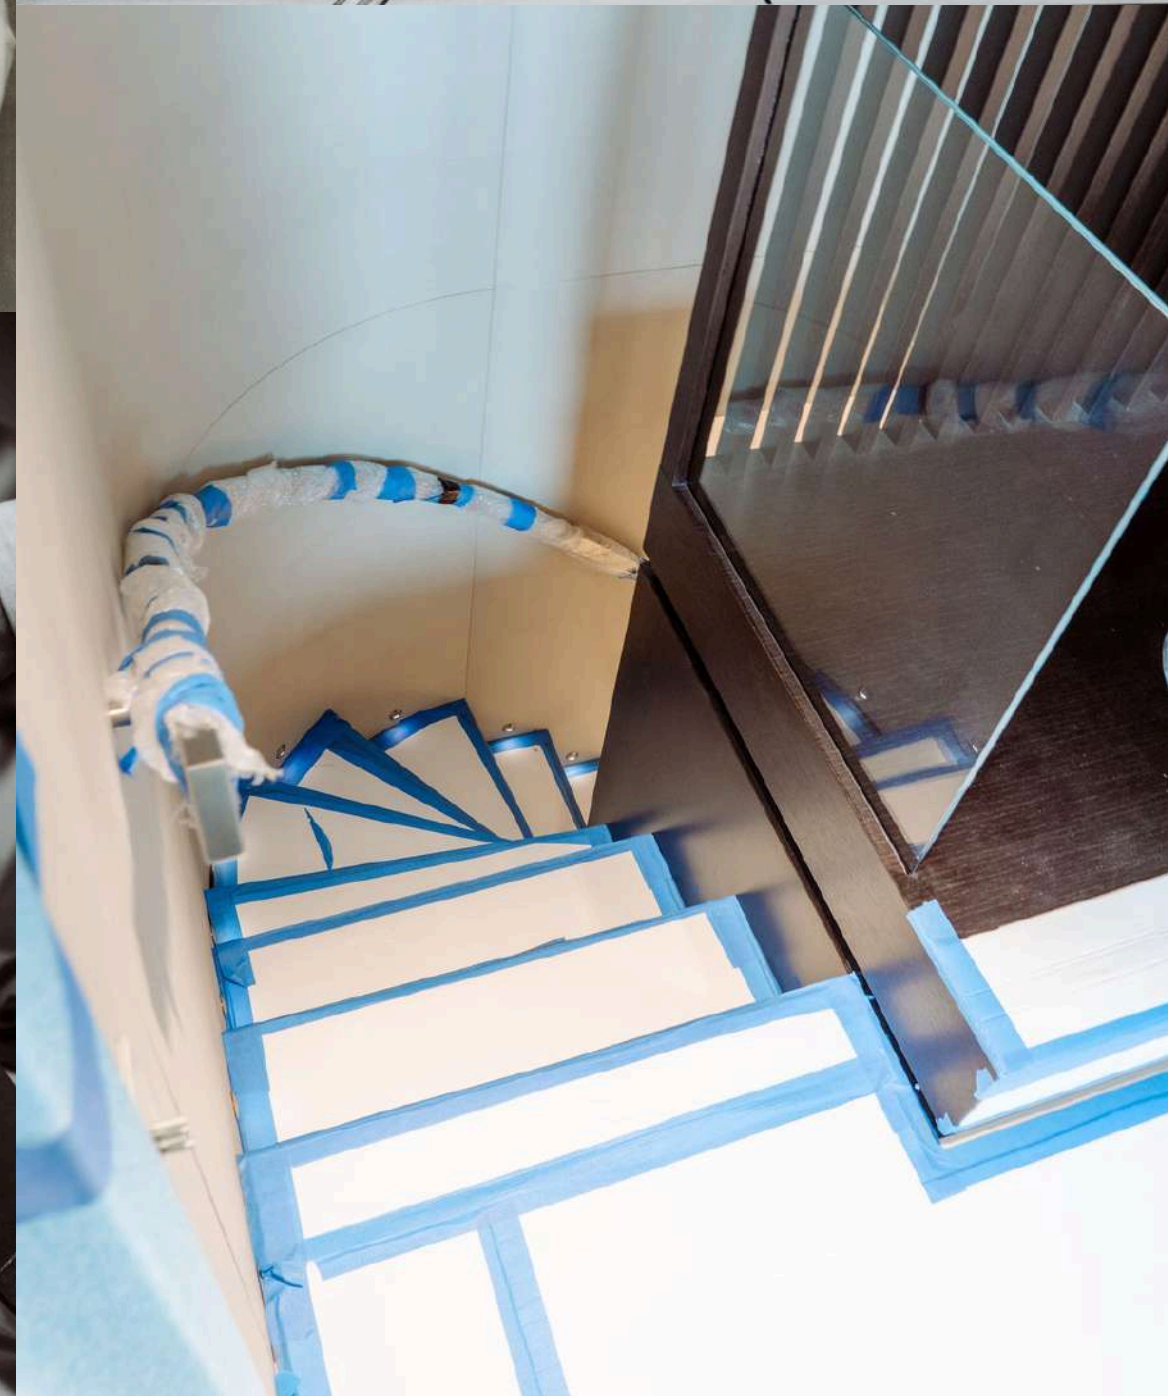

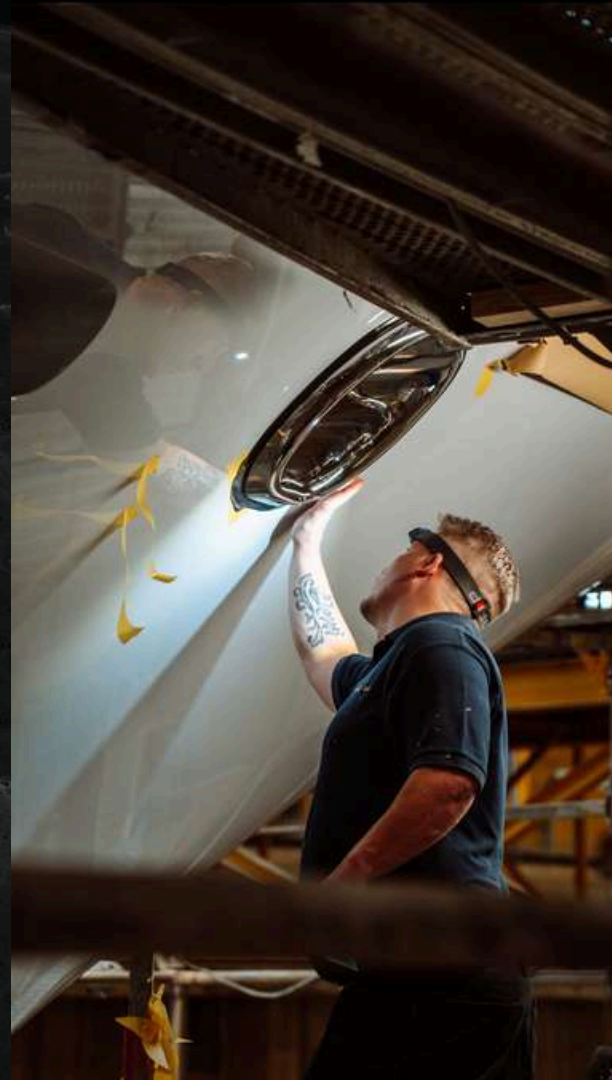

HEADQUARTERS

Reputation is everything in this industry and there's a reason why you worked so hard to curate such stunning offices.

THE BUILD

There's so much that goes into capturing the build, from the shipyard to the team and even the materials used.

All these elements tie into the birth story of this yacht.

FINISHES

Whether you have your own range of finishes or you're working with a famous designer, we'll capture the small details that turn this vessel into a masterpiece.

CRAFTSMEN

The men and women who design, build and test these yachts are the backbone of your company.

Giving a face to the build process creates a sense of authenticity around your narrative.

THE ENGINE ROOM

While not always the most glamorous to look at, we know that the engine is the beating heart of your yacht.

THE LAUNCH

After years of love and labour your clients vessel is finally ready to start her new life.

We'll document everything from her launch to her sea trials and beyond.

EXTERIOR

Once she's found her sea legs we can show her off in all her glory.

INTERIOR

We want to showcase your attention to detail
and where better than with the interiors?
